POWERED BY HAFFLIN**

HAFFLIN INTERNATIONAL PRIVATE LIMITED
Manufacturers, Exporters & Suppliers of Premium Range of
Cook Tops, Built in Hobs, Hob Tops & Other Kitchen Appliances

WHO WE ARE

Hafflin International Private Limited is a rising leader in the world of smart and reliable home appliances. Built on a strong foundation of trust and innovation, the company is guided by its Directors' leadership and backed by over **30 years of industry experience**, combined with a young, forward-thinking mindset in designing and developing high-quality household products. This strong combination shapes our core philosophy — where advanced technology, appliance intelligence, engineering, and practical design come together to enhance everyday thoughtful living.

At **Hafflin**, we believe technology should simplify life. Every appliance we create is thoughtfully engineered, extensively tested, and crafted for long-lasting performance. Our solutions are designed to deliver efficiency, safety, and contemporary style, making them a perfect fit for modern homes.

In addition to delivering high-quality products, Hafflin International Private Limited is equipped to support large-scale business requirements with flexibility and efficiency. We offer product customization as per specific market needs, private labeling options, and tailored packaging solutions. Our streamlined manufacturing process ensures consistent quality, competitive pricing, and timely supply for bulk requirements.

With strong production planning, reliable logistics, and a commitment to long-term partnerships, we aim to build sustainable business relationships based on trust, transparency, and dependable performance.

OUR PRODUCT PORTFOLIO

Our current product range includes:

- **Gas Stoves**
- **Built-in Hobs**
- **Chimneys**

With a strong focus on innovation and market demand, several new products are under development and will be launched soon, further expanding our portfolio.

OEM EXPERTISE

Hafflin's Director brings over **30 years** of expertise in gas stove manufacturing. **Hafflin International Private Limited** offers OEM manufacturing solutions for established brands. We support private labels and online sellers with high-quality, customizable products, ensuring consistent performance, reliable delivery, and strict quality standards.

To support our OEM partners, we have installed a **70-foot-long state-of-the-art gas stove assembly line**. This facility enables us to efficiently cater to large-scale OEM requirements.

All of the products can be customized as per client specifications.

Our infrastructure allows us to add multiple assembly lines as required to meet increased demand.

Experienced technical and production teams ensure precision manufacturing.

Compliance with industry standards and safety norms is strictly maintained.

Capability to handle both high-volume orders and specialized OEM requirements.

Currently, we have successfully manufactured and supplied products to several reputed brands, maintaining consistent quality and timely delivery across all partnerships. Our production planning and inventory management systems ensure uninterrupted supply to our OEM partners.

We are also equipped to expand our manufacturing capacity further by adding additional lines and advanced equipment as required. Continuous investment in technology and process improvement enables us to stay ahead in efficiency, scalability, and quality assurance.

OUR TRUSTED PARTNERS

We are proud to have partnered with reputed brands such as:

Currently, we are also in discussions with some prominent national brands for future collaborations.

WHAT OUR PARTNERS GAIN

- Product customization as per brand and market requirements
- Consistency in quality across every batch
- Timely and reliable supply commitments

OUR QUALITY

Quality is the foundation of everything we do at Hafflin. Backed by **over 30 years of industry experience**, our products are engineered with precision, safety, and performance at their core.

Key highlights of our quality standards include:

- **30 Years of Expertise:** Decades of experience in designing and manufacturing household appliances ensure proven reliability and superior craftsmanship.
- **Leak Detector Apparatus:** Each gas stove is checked/tested with advanced leak detection mechanisms to enhance safety and prevent potential hazards.
- **Three-Layer Testing Process:** Our products undergo a rigorous three-stage testing process covering performance, safety, and durability before reaching customers.
- **Blue Flame Technology:** Designed for efficient and consistent combustion, blue flame burners ensure optimal heat distribution and reduced gas consumption.
- **Higher Efficiency:** Our appliances are engineered to deliver higher efficiency compared to market standards, offering better performance with lower energy usage.
